

## Thanks for your interest in the *Trees for Tomorrow* School Program!

Keep Omaha Beautiful's *Trees for Tomorrow* school curriculum is a FREE, multi-week STEM-based program that culminates with students planting diverse tree species on school property. To apply for the *Trees for Tomorrow* program at your school, [visit this link](#). \*Note: KOB works with 1-2 schools each spring & fall, so space is limited & available on a first-come, first-served basis.

### **CONSIDERATIONS BEFORE APPLYING:**

- There may be a waiting period for availability/eligibility.
- Only one application will be accepted per school.
- PRIOR to filling out the application, we ask that you meet with your school leadership team & all involved teachers to ensure only one application is submitted.
- At that leadership meeting, please review the following questions.

### **RECOMMENDED ACTIONS & REVIEW QUESTIONS FOR YOUR SCHOOL:**

- **What grade level is requesting *Trees for Tomorrow* programming?** *(Please note: although any grade level is welcome to apply, the curriculum best fits with 3-5 grade cross-curricular Nebraska Learning Standards. It also works well with High School Environmental Science Nebraska Learning Standards.)*
- **How does this program fit with your current school-wide & specific grade level goals?**
- **How many classes & approximately how many students would KOB be working with?** *(KOB will typically work with one grade level at a school, anywhere from 1-5 classes.)*
- **What do you hope your school, teachers, & students will gain from participating in this program?**
- **What specific student needs do you hope this program will address?**
- **What are the specific curricular goals or objectives you hope to accomplish by providing this programming for your students?**
- **Are there specific locations or needs for trees on your school grounds?**
- **Do you have an outdoor classroom, nature play space, native plant or vegetable raised garden beds, or other outdoor space other than a standard playground? If so, are you hoping new trees will enhance this existing outdoor space or be in addition to it?**
- **Do you have any concerns about implementing this program at your school?**
- **Who is the main point of contact for this program & what is their role at your school (principal, teacher, librarian, etc.)?**
- **When are you hoping to provide this program for your students?** *(Please note: KOB can work with 2 schools each spring & 2 schools each fall.)*
